- 1 Target audience - oriented
- 2 21st century- oriented
- 3 Hands-on/Interactive
- 4 Program Kit
- 5 Certificate of Completion

Select from These Development Programs

1. Mapping out with PIQE FOR SCHOOLS

This program provides a path that uses performance indicators for quality education, **PIQE**, to analyze, monitor and develop four fundamental areas – school statement, learners, staff, and leadership.

PIQE provides indicators that combine standards of both Ministry of Education of the country respectively and the accreditation organization of the school so that the school can meet both standards comprehensively, simultaneously and effortlessly.

Data-analysis tools are thoroughly utilized to perform a systematic, data-driven study that has one main outcome: improvement and development.

Duration of the Program: Minimum of one academic term

Materials Offered: **PIQE** Kit, that includes diagnostics, tools, guidelines, and hand-outs to help conduct the research-based study effectively.

2. **Climate and Culture** FOR SCHOOLS

This program is for schools that still find difficulty reaching its aspired results despite having advanced campuses and facilities, or schools that cannot achieve cooperation and harmony needed for success.

Climate and Culture C&C program provides a roadmap that assists schools in understanding the intricate nature of soft factors in comparison to the hard factors – the balance rate needed to achieve identity, stability and overall growth.

Duration of the Program: Minimum of one academic term

Materials Offered: **Climate and Culture** Kit, that includes diagnostics, tools, guidelines, and hand-outs to help detect and analyze variables throughout the process of establishing a healthy school environment.

Climate
&
Culture

3. **Climate and Culture** FOR COMPANIES

This program is for companies that cannot achieve cooperation, motivation, and harmony needed for success and growth.

Climate and Culture C&C (For Companies) program provides a roadmap that assists companies in understanding the intricate nature of soft factors and their importance - the key to achieve identity, sense of belonging, commitment and overall growth.

Duration of the Program: Minimum of a three-month period

Materials Offered: **Climate and Culture** Kit, that includes diagnostics, tools, guidelines, and hand-outs to help detect and analyze variables throughout the process of establishing a healthy work environment.

Climate
&
Culture

Note:

Climate and Culture programs require sincere willingness to cooperate during diagnostics stage and action plan. Wise leadership is essential for a healthy and productive work environment so leaders are encouraged to be role-models for other staff members during and after the program.
